

KEAN = PRO-CHINA

Holds stock in and profits from China's Alibaba Group, a company with deep ties to the **Chinese Communist** Party's policies and recently caught promoting facial recognition technology that would allow the Chinese government to identify and target for **genocide members** of the Uigher population.

The Wall Street Journal has said that Alibaba is also one of the companies that "assist [Chinese] authorities in hunting down criminal suspects, silencing dissent and creating surveillance cities," and that it acts "as the government's eyes and ears in cyberspace." – NJ.com, 2/27/22
