

KEAN = GREEN NEW DEAL

Kean **voted YES** to increase development and housing costs for all New Jerseyans by mandating electric vehicle charging stations and green “Renewable” energy bills.

We already have limited housing options, and home prices are continuing to rise. These bills are contributing to already sky-high housing costs. **S349, S2252, A3723**

Kean **voted YES** to implement the “California Low Emission Vehicle program,” the “California zero emission vehicle requirements,” and to hand out tax credits for “green” vehicles. **S3295**

Kean **voted YES** to spend over \$1.94 billion in taxpayer dollars to subsidize “environmental infrastructure.” **A4528**

Kean **voted YES** to give taxpayer money via tax credits to “Green Building and Infrastructure” corporations. **S2121**

Kean **voted YES** to burdensome residential development project regulations which disincentivize new housing in New Jersey, sending already high rental prices through the roof. **S1**
